Hello all

(b) (6). Mindy Collins, the Ecology inspector for the facility conducted an inspection last Wednesday. She called and left me a message while she was in the field. Although I don't yet have the exact date, she indicated that Stella Jones ceased operations in 2016. It sounds like the tanks etc. had been emptied but they had not conducted clean closure – because of the potential to open sometime in the future.

I think it is the perfect time for Baxter to conduct the required closure.

Shirin...How do we initiate – with a letter referencing the order to Baxter? Do we cc: Stella?
